EXPERIENCE

) UPMC
pittsburgh, pa
6/23 – 4/24

university of pittsburgh medical center (upmc) is a pennsylvania based health care provider and insurer

in june of 2023 i transferred from iq inc. to upmc where i continued work on the rxwell project

became certified in safe 5.1 (scaled agile framework) • routinely updated angular codebases to the latest version of angular; implementing new angular features when appropriate • participated in code reviews for angular and nativescript codebases • worked efficiently and productively in a remote employment setting while also effectively communicating with colleagues through either voice or text

) IQ INC.
monroeville, pa
7/22 – 5/23

iq inc. is a software development and consulting company that specializes in custom software development

for my time at iq, i worked with upmc on the rxwell project

front-end developer responsible for maintaining a web-based application used by health care specialists to manage and message rxwell users • used azure devops as a team to assign tasks and meet sprint goals in a ci/cd manner • wrote unit tests and worked with testers to ensure that deployed software was up to a high standard and quality

) VERTICAL LIFE LLC
seattle, wa
11/16 – 9/20

vertical life llc is mobile-based startup specializing in augmented reality (ar) technologies

for most of my time at vertical life i was the sole front-end developer of an augmented reality based social media platform

created multiple angular components used by other members of the front-end team • wrote pages to be responsive to both mobile and desktop views • forked the wikitude and ar.js codebases to make modifications needed for the application • helped integrate google maps into the web version of the application and some parts of the mobile application

) AFFILIATED FOODS INC.
amarillo, tx
3/16 – 11/16

operating in seven states, affiliated foods is a grocery distributor to over 700 stores

wasn't there too long but in my short time there i was given the responsibility of installing and helping maintain a new company-wide it ticketing / asset tracking system

wrote software to convert and migrate multiple ~20 year-old microsoft access files into a new database • responded to it tickets • set up computers/e-mail accounts for new employees • helped other members of the it department troubleshoot, fix, or replace servers and other colleague's computers

PROJECTS

) kexp-react
fan project for kexp-fm, a non-commercial radio station based in seattle, wa. developed using react + tailwind

kexp-react.jacob-jordan.me
github.com/jacobjordan94/kexp-react

) cartographer - rxwell
cms (content management service) for rxwell; originally written in angularjs, my primary responsibility at upmc was to rewrite cartographer into the latest version of angular

youtu.be/tQ-r6KKAuJ4

) ar mobile app - vertical life llc
augmented-reality based android and ios social media application. developed using cordova/ionic and wikitude

EDUCATION

the university of texas permian basin • odessa, tx
